

Profile of Eatz

Food without the Fuss

Eatz is the new, easy corporate food service offering from Blowingsands cc.

What Does Eatz Do *so easily*

You know what your core business is and you know how to run your business.

You know that a good canteen leads to happy workers and happy workers leads to good business. You also know that a poor canteen leads to unhappy workers and management headaches.

You probably don't know how to run a canteen. You probably don't want to invest in kitchen equipment. You really don't want a chef and you don't want to start a food business inside your own business.

That is where we come in.

We know how to run canteens. We take the problem away.

Eatz gives you on site food with the minimum of outlay, the minimum of staff and the maximum benefit to you and without all of the fuss of a catering department.
